In-Dash Interaction for FORD and RAM trucks for wireless and wired trailer cameras

<p>Wireless Camera when you have with 12 pin outlet</p> 	<p>VWFDIKT-WL</p>	<p>In-Dash WIRELESS Kit for Trailers on select Ford & Ram trucks If your Ford Super Duty truck (2017 - current) or Ram (2020 - current) has a 12 pin outlet above the 7 way plug (as shown in top left corner in photo to the left) and has a Sync 3 w/ 8" screen or Sync 4 w/ 12" screen or Uconnect w/ 8.4 or 12" screen, the truck may be a candidate for this system. (please refer to our "In-Dash" integration requirements on our website). This wireless package will have everything you need to install the wireless camera on a "camera prepped" RV and also a universal bracket that will work on any trailer. To ensure a good connection we include a Booster antenna to shorten the line of site on long RVs. This is the easiest to install and most affordable in-dash wireless camera system available.</p>		<ul style="list-style-type: none"> • One Wireless G2 Camera IP69K w/ nightvision • One RV Pre-Wire (Furrion compatible) Adapter & Bracket • One Weatherproof Receiver • 12v hardware and universal bracket • 15 ft ext cable • Booster antenna to shorten line of site on long RVs • Ford/Ram Factory integration 12 pin adaptor 	<p>499.00</p>
<p>Wired Camera when you have with 12 pin outlet</p> 	<p>VWFDIKT</p>	<p>In-Dash WIRED Kit for Trailers on select Ford & Ram trucks If your Ford Super Duty truck (2017 - current) or Ram (2020 - current) has a 12 pin outlet above the 7 way plug (as shown in top left corner in photo to the left) and has a Sync 3 w/ 8" screen or Sync 4 w/ 12" screen or Uconnect w/ 8.4 or 12" screen, the truck may be a candidate for this system. (please refer to our "In-Dash" integration requirements on our website). This wired package will have everything you need to install the camera on a "camera prepped" RV and also a universal bracket that will work on any trailer. A 30 ft cable can be ran from your hitch to the camera and then simply plugs into the receptacle when the trailer is connected. This is the easiest to install and most affordable in-dash wired camera available.</p>		<ul style="list-style-type: none"> • One Wired Camera IP69K w/ nightvision • One RV Pre-Wire (Furrion) Bracket • One 30 ft ext cable • Universal bracket • Ford/Ram Factory integration 12 pin adaptor 	<p>399.00</p>
<p>Wireless Camera for some trucks & aftermarket monitors with RCA inputs</p> 	<p>VWIKTRCA-WL</p>	<p>In-Dash WIRELESS Kit for Trailers on select trucks that have RCA video inputs. If your truck or aftermarket monitor has an RCA input this wireless camera may be right for you. (please refer to our "In-Dash" fit chart on our website). This wireless package will have everything you need to install the wireless camera on a "camera prepped" RV and also a universal bracket that will work on any trailer. To ensure a good connection we include a Booster antenna to shorten the line of site on long RVs. This is the easiest to install and most affordable in-dash wireless camera system available.</p>		<ul style="list-style-type: none"> • One Wireless G2 Camera IP69K w/ nightvision • One RV Pre-Wire (Furrion) Adapter & Bracket • One Weatherproof Receiver • 12v hardware and universal bracket • 15 ft ext cable • Booster antenna to shorten line of site on long RVs • RCA adaptor and cigarette adaptor 	<p>399.00</p>
<p>Wireless Camera for select trucks without 12 pin outlet (shown above)</p> 	<p>VWIKTFORD-WL</p>	<p>In-Dash WIRELESS Kit for Trailers on select Ford & Ram trucks If your Ford Super Duty truck (2017 - current) or Ram (2020 - current) does NOT have the 12 pin receptacle (as shown in top left corner in photo in the first option) and has a Sync 3 w/ 8" screen or Sync 4 w/ 12" screen or Uconnect w/ 8.4 or 12" screen, the truck may be a candidate for this system. (please refer to our "In-Dash" integration requirements on our website). This wireless package will have everything you need to install the wireless camera on a "camera prepped" RV and also a universal bracket that will work on any trailer. This camera has an IP68 rating so it's ready for harsh conditions.		• One IP68 Wireless HD License Plate Camera • One 4-Way Power Adapter	199.00

Other Accessories						
	VWW24 (Frequency A-D)	This analog transmitter and receiver allows you to make any of our wired standard definition cameras into wireless cameras. This is not an interference free signal but does allow you to view a single camera on several monitors. This system is perfect for harvesters and grain storage where multiple trucks need to see a camera when they come into close proximity. Both the transmitter and receiver are Weatherproof.			<ul style="list-style-type: none"> • One Wireless Analog Transmitter • One Wireless Analog Receiver 	75.00
	VWQ4	Our quad processor allows users to plug four cameras or wireless receivers into the quad and only one output to the monitor. With the wired remote you can choose to view all four or each camera on the screen.			<ul style="list-style-type: none"> • One Quad Processor 	289.00
	VW7PMA	This 7-Way Power Management Adapter provides constant 12v power to your trailer and allows you to by-pass newer vehicle's variable voltage systems. This solution also makes it possible for RVs to power their marker lights when not connected to a tow vehicle.			<ul style="list-style-type: none"> • One 7-Way Power Management Adapter 	79.00
	VWODS-ANT7	OMNI DIRECTIONAL SHIELDED 30' CABLE WITH 7DBI ANTENNA This long-range booster antenna mounted on the top of an RV provides for a clearer wireless signal, It can be particularly helpful in trailers longer than 30', or if you want to use your camera system while driving, where the law allows, not just backing up			<ul style="list-style-type: none"> • One Omni-Directional Booster Antenna 	39.00
Cables						
	VW6PV4	6 ft. extension cable 4-pin o-ring sealed round connectors. Compatible with both analog and AHD systems.			<ul style="list-style-type: none"> • One 15 ft. (4-pin) Extension Cable 	23.00
	VW15PV4	15 ft. (5 meter) extension cable 4-pin o-ring sealed round connectors. Compatible with both analog and AHD systems.			<ul style="list-style-type: none"> • One 15 ft. (4-pin) Extension Cable 	28.00
	VW30PV4	30 ft. (10 meter) extension cable 4-pin o-ring sealed round connectors. Compatible with both analog and AHD systems.			<ul style="list-style-type: none"> • One 30 ft. (4-pin) Extension Cable 	33.00
	VW65PV4	65 ft. (20 meter) extension cable 4-pin o-ring sealed round connectors. Compatible with both analog and AHD systems.			<ul style="list-style-type: none"> • One 65 ft. (4-pin) Extension Cable 	44.00

	VW14PCON	This is our economy quick hitch connector simply makes connecting an implement to your tractor convenient. The harness is for your 4 camera system (each camera has an 6 foot lead). It's compatible with both analog and AHD systems.		• One VW14 PCON Harness	79.00
	VW00TR	This is our heavy duty quick hitch connector simply makes connecting an implement to your tractor convenient. The harness is for your 4 camera system (each camera has an 8 foot lead). It's compatible with both analog and AHD systems.		• One VW00TR Harness	199.00
	VWMOBAT	This is a rechargeable battery pack for wireless applications where you do not have a 12v power source. This will provide the camera with around 7-8 hours of battery life before it needs to be recharged. It comes with an ACDC charger, 12v charger, and a magnet.		• One Rechargeable Battery Pack • One ACDC Charger • One 60# Magnet	149.00
	VW24PV4	This "Y" adaptor (when used with a VWDWTR and a wired camera) allows you to watch the wired camera in your monitor and transmit the same video signal to another monitor up to 400 ft away.		• One "Y" Adapter	89.00
	VWRC4P	This cable allows users to plug a VW Camera into any monitor with an RCA input like an TV, DVR or Edge. The monitor side of the adaptor is a male RCA and the camera side of the adaptor is 4-pin male.		• One VWRC4P	29.00
	VW4PRCA	This cable allows users to plug a DVD into your VW monitor. The monitor side of the adaptor is 4-pin female and the camera side of the adaptor is an RCA female.		• One VW4PRCA	29.00
	VWBKHDADP	Bulk Head Adaptor. This adaptor is great for Air Seeder tanks that you can seal and keep the low pressurization. Also a great way to get into a cab and keep it air tight.			
	VWNAVPLUS	This adaptor can be used for Kenworth and Peterbilt Trucks to view a VW camera on a Navplus in-dash monitor.		• One VWNAVPLUS	33.00
	VWTLADP	Our truck lite adaptor allows users to attach our wireless cameras to the back of your semi or trailer and use the existing 12v power at the running lights. Most semi trailers use this type of 12v adaptor, but you can always call us to check your model.		• One VWTLADP	39.00
	VWACDC	This adaptor converts 110v to 12v and works on wireless and wired systems. These are free for dealers that want to display Visionworks on their parts counter.		• One VWACDC	12.00
	VWJDP	John Deere Power strip adaptor w/male barrel plug. May work on other brands of tractors with a 12v power supply strip		• One VWJDP	39.00
	VW12VCA	This is our cigarette lighter adaptor that is used to power your monitor.		• One VW12VCA	15.00

Mounts					
	VWFPL	Many RV trailers and 5th wheels come pre-wired for a camera system and this metal bracket makes installation quick and easy, and gives the Visionworks Wireless Cameras a fit and finished look that's compatible with Furrion pre-wired RVs. This will also include a 12v power and ground adaptor compatible with RV pre-wired for a Furrion Camera.		<ul style="list-style-type: none"> Power Adaptor & Mounting Plate Compatible with Furrion Pre-Wired RVs One RV Pre-Wire Adapter & Bracket One 12v Power & Ground Adaptor 	29.00
	VWVPL-PC	Many RV trailers and 5th wheels come pre-wired for a camera system. This metal bracket makes installation quick and easy, and gives the Visionworks Wireless Cameras a fit and finished look that's compatible with Voyager pre-wired RVs.		<ul style="list-style-type: none"> One RV Pre-Wire Mounting Bracket Compatible with Voyager Pre-wired RVs 	29.00
